THE HISTORY OF OUR CLUB

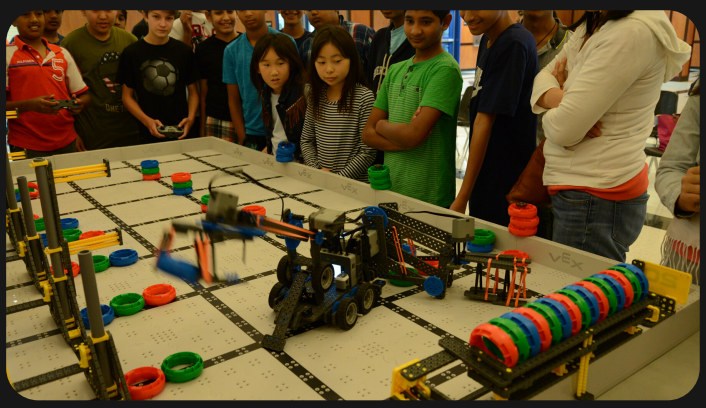
DVHS Robotics was founded in 2007 and has since been devoted to the pursuit of robotics and other STEM related activities. Ever since, our club has been expanding to include more teams and members. We use the Vex platform and compete in VRC. Our teams regularly qualify to state and national level tournaments. With 4 out of the 5 DVHS teams qualifying to the VRC World Championships in the 2018 - 2019 season.

WHY SPONSOR US?

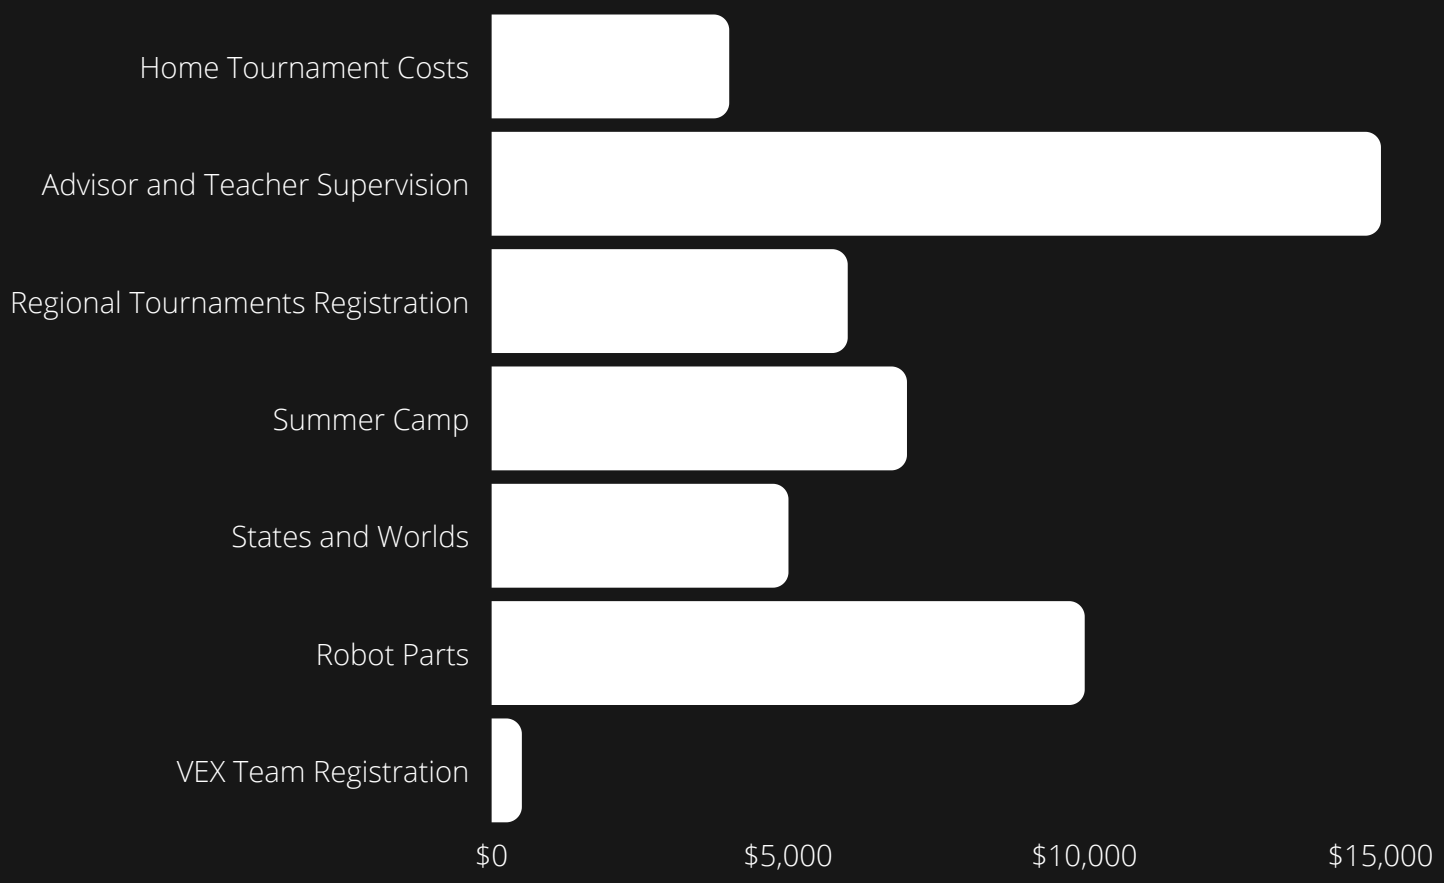
At DVHS Robotics the money you donate helps shape the next generation of leaders in tech such as yourselves, A Competitive Robot in VEX Robotics Competition can cost up to 2,500 dollars in equipment, not including registration and travel fees. Without adequate funding to support enough robots, we have to limit the number of competing teams in our club, which is devastating our mission to provide engineering and competitive experience to all interested students.

WHERE DOES THE MONEY GO?

Each school year, we host 2 events and 3 yearlong programs. Th events include our annual VRC tournament and summer camp (for rising 6th to 9th graders in our community). Our three programs (boost, novice, and competitive), give valuable experience to our members, and teach them about STEM in robotics (building, programming, and designing). Your money helps us rent the gym, setup concession stands, buy fields, obtain Vex IQ parts for our summer camp, support our five competitive teams, pay for teacher supervision at our summer camp and at novice meetings, and much more.



BUDGET FOR THE 2022 SEASON



SPONSOR BENEFITS AND LEVELS
