GENERAL RULES & GUIDENLINES

→ Queuing

- Queue runners to inform teams FOUR matches ahead of time, to account for the walk from the pits to the fields (from the aux gym to the main gym)
- We require that each team has at least one person stay at their pit
- Matches will run without "no show" teams. NO team will be allowed to replay matches for any reason other than field and/or technical problems.

→ Match Dispute

- Teams will be provided UP TO 5 MINUTES for match disputes right after their match. After that, the score will be finalized and teams will need to move their robot off the field. Failure to comply with the 5 minute limit will result in team consequences.

→ Judging

- Teams will have to sign up for judge interviews throughout the tournament
- Engineering notebooks due by 8:15 am at the help desk or digitally by 10/27 at 11:59 pm through robotevents
